As the world slides to nuclear war and bombs explode in the background, the de Courvals have their family problems, but become increasingly uninhibited. Juliette is uninterested in her husband. Armelle is in love with him but he will not look at her. She spies on her flat-mate having sex with a man, then kicks him out. The son of the de Courvals is caught masturbating by his tutor, Patricia, but she undoes her dress and masturbates as well while remembering an encounter with Thierry de Brem on a yacht (probably archive footage). There is a dinner party and Juliette cools herself against a fan, revealing her knickerless state. The son is caught masturbating under the table cloth and sent off to bed. Then the rest of the party adjourn to watch a porn film.

It turns out that Richard features in this film and he almost leaves, but returns. Alex is turned on enough to begin to grope Patricia, and she remembers a threesome with Thierry and another male. Armelle almost masturbates and then, disgusted as the porn film reaches the point where two girls take a facial, she rushes to the bathroom. Alex goes to console her and she offers herself to him - we see a fantasy sequence - but he turns her down. But back in the main room Juliette and Patricia have leapt on Richard. Alex and Armelle join in and the butler is conscripted to make up the numbers. The son has dressed up in drag and watches from a balcony and then joins in.

All this is intercut with war sequences and shots of the leaders of the USA and USSR on the hotline. Now the mushroom clouds begin to go up and we see the US president getting a titty fuck from a busty brunette.

Description: A married couple is introduced to us. The movie starts with some erotic flashbacks of their first wedding anniversaries. Being bored after four years of marriage the wife searches for new amorous challenges. She is a beautiful curvy green-eyed woman, far from innocent.

An opportunity arises when the husband is on a business trip to London where he has a love affair. In a sauna the wife seduces her Indian-looking house maid. Turned on by the heat, they spend some time in a 69 eating each other out.

Next she persuades a parking attendant not to write her a parking ticket - in a phone box she starts blowing his dick. Suddenly an impatient guy arrives. While the traffic warden pretends to make a phone call she jerks him off. The scene ends with some nice cleanup licking. From the wall of a restaurant toilet she gets the phone number of a horny couple. The woman quickly comes to the point. She sticks a finger in our heroine's ass. Well prepared, our heroine then takes some anal doggy style from the guy who finally unloads on her bush.

Next she investigates a young couple in a park. She invites them to her home and places the bedroom at their disposal. She leaves the room and returns several times to watch them. After some 69 the guy fucks the girl missionary.

The next scene is incredible. Sitting in her VW Beetle Cabriolet, she starts fingering herself on a public street in Paris while other cars pass by. Some people gather, watch and take photos of her. Under their eyes she does some heavy handwork. She leans her head against the door frame. Her eyes are closed but her mouth is wide open and she seems to enjoy the situation. She fingers her clit until she cums volcanically. Then she drives away. The scene looks really genuine. If it's a fake it's well done!

At home she phones her brother in law. She meets him and they have sex together with another couple (including XNK1356). After some doggy and missionary style the guys cum on the girls' bellies. The scene finishes with some lesbian action. Finally her husband returns home from Britain. He admits to her that he had a love affair with another woman. But from now on he's going to change his life - it's their sixth wedding day! But she's just smiling and explains to him that the anniversary will be next week!
